

LLIR Members' Parking at Glendon - Information & Instructions – effective Summer 2024

Please refer to the map below for campus parking locations.

The parking payment process at Glendon is an automated online system called HONK. It is a cell phone “App” quite similar to the city’s Green P parking app.

Please Note: Cash is NO longer accepted for parking at Glendon - **Credit or Debit Card only.**
Cost : \$1.75/half-hour (\$15.00 daily max for one session), **Saturday:** \$7.00 flat, **Sunday:** \$5.00 flat.
The HONK system automatically adds a \$0.35 admin fee.

For the first few Fridays a Glendon Parking/Security agent will be onsite to provide assistance.

N.B. Most members find that after the one-time initial setup of the cell-phone app, it is the easiest, fastest, and most convenient way to park at Glendon.

There are three ways to pay for your parking using **HONK**, directly or indirectly:

1. Download the HONK Mobile App to your cell phone (from Google Play Store or MAC App stores) and use it when parking at Glendon. You will find it easier and simpler to download and initialize this app **before** you come to Glendon. If you choose **not** to use this App, please see the two alternative modes below.
2. When you download this app and signup/register/join for service, you become a HONK client, which allows you to use it at Glendon, York U, and many other locations. When you first join the app, and before your first parking use, you pre-enter your vehicle plate number and your payment card information. Subsequently, when you wish to park, you re-open/call up the app at that time – likely when you are on-site at Glendon. The instructions within the app are quite straightforward. It provides location and lot information selections. Please ensure that you have the “Location Services” setting enabled on your cell phone to make the parking lot details easier and faster to enable.
3. When you arrive at Glendon and have parked in your selected spot, just open the HONK app and the system’s geo-location feature will find you at Glendon and suggest the appropriate lot information location: codes 7721 for the upper lots (A or B), or 7722 for the lower lots (F or G). (Please ensure that your phone’s location settings have been turned on/enabled for this system feature to work.)
4. You can also pre-book your session online before you leave home if you wish; however, you are not guaranteed a space if the lot is full when you arrive on campus. Also, do not book before 7:30 a.m. as the system resets to start a new day at that time and any existing reservation periods are deleted.
5. You can use HONK to book and pay for your parking session at Glendon without having to leave your car or line up in poor weather.
6. Parkers with **Accessible Parking Permits** can use the designated spots, but **must still select and pay** for their anticipated time interval.
7. One advantage of using this HONK App is that it can warn you when your purchased time is nearing expiry, and you can choose to extend your session without leaving your current activity/location. However, please ensure that your parking period “end” time is sufficiently beyond your lecture session end time to ensure that you can return to your car. Remember, we prefer **not** to have our classes interrupted by cell phone alerts, so please turn your phones off or in mute mode during lectures.
8. For additional information go to <https://www.yorku.ca/parking/>

OR

1. Using your cell phone, scan or tap the QR code (if you have this feature/function enabled on your phone) posted on the payment kiosks/stands in the parking lot and follow the instructions for payment.

2. You will need to enter the plate number of your vehicle – so have it handy.

OR

1. If you do not wish to use a cell phone, go to the kiosk/pay station in the parking lot and use your Visa, Mastercard credit or debit card to make your payment. No coins or cash are accepted at the pay station. You will also need to enter your vehicle plate number – so have it handy.

For any of these three methods, there is **NO** need to put a receipt on your dash as proof of payment, as the system has registered you and your vehicle under your plate number for the time period you have selected.

NOTE: As of Dec 1, 2023, the City of Toronto increased parking fines for Illegal parking on private property, which is the category of our lots at Glendon. City parking infraction tickets are issued by Glendon Parking Patrol staff for expired or unpaid times and vehicles parked illegally anywhere on campus, including marked no parking zones. Glendon, York and LLIR have no input to the process once a ticket has been issued; it can only be dealt with through the City's parking ticket processes. The default fine has increased from \$30 to \$75 per occurrence, so please be careful to park only in the marked spots in the designated lots on the map. Also ensure that you pay the required hourly/daily fees for your parking duration even if you are displaying an Ontario Accessible Parking Permit.
